

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Monday 05 Mar 2012

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Rather cloudy in southeast England, but sunny intervals will develop through the day. Across the rest of England and Wales it will be a cold and frosty start, then mainly fine and sunny through the day. In Northern Ireland and Scotland it will be cloudy with rain and increasing winds.

Outlook for Wednesday and Thursday:  
Outbreaks of rain on Wednesday will clear away to the southeast by afternoon. Bright but cool conditions with frequent showers will follow the rain. The showers will be of snow in the northwest. Cloudy and windy with rain in the north on Thursday, but fine and dry in the south.
