January	1-28	July	189-220
February	29-60	August	221-252
March	61-92	September	253-284
April	93-124	October	285-316
May	125-156	November	317-348
June	157-188	December	349-376

Advection of rain belts with the 700-mb wind; W. E. Saunders, 346	Conference plans detailed atmospheric studies (WMO press release), 218
Agrometeorology in the Meteorological Office; G. W. Hurst, 170, <i>photographs between</i> 172, 173	Crabtree, J. and Patterson, V. L.; Forecasting the time of fog clearance, 342
Algorithm depending on the physical interpretation of the Laplacian; R. Dixon, 294	Craddock, J. M.; Statistische Auswertung geophysikalischer und meteorologischer Daten (J. Taubenheim), <i>review</i> , 370
Artificial modification of clouds and precipitation; <i>recent publication</i> , 155	Craddock, J. M.; Work in synoptic climatology with a digitized data bank, 221
Atkins, Margaret J.; Objective analysis of upper air height and humidity data on a fine mesh; 98	Dent, D. W. and Preedy, B. H.; Structure of the troposphere over Gan, 304
Average temperatures, contour heights and winds at 50 millibars over the northern hemisphere, R. A. Ebdon; <i>official publication</i> , 187	Dew-point temperature as a snow predictor; B. J. Booth, 363
Bailey, M.; Mountain lee-wave incidents in Scotland, 110	Displaced British Isles; C. G. Johnson, 152, <i>photograph between</i> 140, 141
Bartlett, J. T.; Field guide to snow crystals (E. R. LaChapelle), <i>review</i> , 374	Douglas, H.; A sudden squall at Sharjah, Trucial States, 336
Bartlett, J. T.; Rainstorms and hail (G. K. Sulakvelidze), <i>review</i> , 250	Driedger, H. L. and Catchpole, A. J. W.; Estimation of solar radiation receipt from sunshine duration at Winnipeg, 285
Benwell, P. R. and Murray, R., PSCM indices in synoptic climatology and long-range forecasting, 232	Dixon, R.; A geometrical interpretation of balanced motion, 256
Betts, W. H.; <i>obituary</i> , 284	Dixon, R.; An algorithm depending on the physical interpretation of the Laplacian, 294
Blowers, Bernard A.; awarded I.S.M., 252	Dixon, R. and Kirk, T. H.; A geometrical interpretation of the kinematics of two-dimensional flow, 245
Booth, B. J.; Dew-point temperature as a snow predictor, 363	Dixon, R. and Zobel, R. F.; Note on the forecasts of wave height made by the Meteorological Office, 177
Booth, B. J.; Persistent snow showers on Salisbury Plain on 6 March 1970, 280	Effect of a moisture-covered dry-bulb thermometer on air temperature readings and the derived humidity values; D. J. George, 275, <i>photograph facing</i> 268
Boyden, C. J.; Winter precipitation over East Anglia, <i>letter</i> , 219	Effect of a small upland plantation on air and soil temperatures; K. Smith, 45
Catchpole, A. J. W. and Driedger, H. L.; Estimation of solar radiation receipt from sunshine duration at Winnipeg, 285	Effect of changes of atmospheric stability and surface roughness on off-shore winds over the east coast of Britain; P. E. Francis, 130
Cirrus and altocumulus lenticularis; <i>photograph between</i> , 44, 45	Efstathiou, V.; awarded B.E.M., 375
Clark, J. A.; Air pollutants, meteorology and plant injury, WMO Technical Note No. 96 (E. I. Mukammal <i>et alii</i>), <i>review</i> , 283	Estimation of solar radiation receipt from sunshine duration at Winnipeg; H. L. Driedger and A. J. W. Catchpole, 285
Clarkson, L. S.; On the representativeness of measurements of height of low-cloud base at an airfield, 253	Extremes of monthly and annual sunshine duration in the British Isles; E. N. Lawrence, 143
Climate of interior Oman; D. E. Pedgley, 29	Findlater, J.; Tropical Indian Ocean clouds (Andrew F. Bunker and Margaret Chaffee), <i>review</i> , 374
Colloquium on the spectra of meteorological variables; C. J. Readings, 56	Forecasting night minimum temperature by a regression equation; <i>letter</i> from J. Marsh, 154
Comparison of methods of forecasting night minimum temperatures on concrete road surfaces; G. E. Parrey, W. G. Ritchie and S. E. Virgo, 349	Forecasting the time of fog clearance; V. L. Patterson and J. Crabtree, 342
Composite cloud photographs from NIMBUS satellites; <i>photograph facing</i> 79	
Computing aid to studies of airflow over mountains; C. E. Wallington, 157, corrections, 284	

- Forsdyke, A. G.; World survey of climatology Volume 2, General climatology, 2, (edited by H. Flohn), *review*, 215
