

FPUK85 EGRR 041000
Forecast for the UK.
Issued by the Met Office
at 1000 on Tuesday 4 January 2005

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Rain moving southeastwards then clearer, less windy, showers in north.

Today:

Rain reaching southeastern areas later with drier, less windy weather reaching the rest of England and Wales. Further north, some sunshine with blustery showers, wintry over Scottish hills.

Tonight:

Rain clearing the southeast with a risk of frost and icy patches. Elsewhere, showery rain towards the west and north with gales in northwest Scotland.

Outlook for Wednesday:

Rain and strong winds followed by showers.
