

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Thursday 09 Jun 2016

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Mostly dry, bright and warm today with the odd shower. Eastern areas will be cloudy during the morning so it'll be a cooler day here, but still with bright spells in the afternoon. During the evening, northern areas may still have the odd shower, but most places will be dry with some mist possible overnight.

Outlook for Friday and Saturday:  
Friday will be less warm and cloudier too, with scattered showers or longer spells of rain in the north and west. There'll be some sunny intervals too though, with the best of the sunshine in the south-east. Saturday looks to remain unsettled, with some rain.
