DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 17 April 2021 at 05:39 local time

**Air Quality Forecast for the UK**

Issued by the Met Office

Today: Predominantly Low levels of air pollution are expected today, but with isolated small pockets of Moderate air pollution likely, especially with light winds in urban areas.

Tomorrow: Again mostly Low levels of air pollution are expected, with isolated pockets of Moderate air pollution possible. These are most likely during Sunday across the southwest of Wales and southwest England, but may also occur in urban areas with light winds.

Outlook: With dry weather continuing across much of the UK, and light winds, there will be little change. Low levels of air pollution will continue across much of the UK, with isolated Moderate pockets possible.
