

FPUK86 EGRR 100630
Forecast for the UK.
Issued by the Met Office
at 0700 on Thursday 10 February 2005

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Thursday:-Southern areas cloudy, rain heavy at times, especially in west. Northern areas, sunshine and showers, falling as snow over high ground in Scotland. Windy with gales. Mild in the south. Near or rather below normal in north.

Thursday evening/night:-Cloudy with rain, in south. Clear spells elsewhere, a frost developing, especially in the north and east. Cloud and rain returning to N.Ireland and much of Wales later.

Outlook for Friday and Saturday:

Rain spreading across all parts on Friday, heavy in places. Rain clearing away from south on Saturday, then sunny spells and showers. Most of the showers in the north and northwest. Turning colder.
