

FPUK85 EGRR 051000  
Forecast for the UK.  
Issued by the Met Office  
at 1000 on Sunday 5 June 2005

\*\* Valid for Broadcasts Between 1200 and 1800 \*\*

Headline:

Rather cloudy. Rain in the south, showers in the north/northeast.

Today:

Rather cloudy across the UK, best chance of some bright or sunny intervals across central and northern areas. Over southern Britain, rain continuing to spread eastwards. Showers elsewhere across the north and northeast while northwestern parts should stay dry.

Tonight:

Patchy rain lingering in the south but most places becoming dry though still rather cloudy.

Outlook for Monday:

Dry with bright or sunny spells.
