

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Tuesday 03 Jun 2008

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:

A wet start to the day across central and eastern England with outbreaks of heavy rain this morning. The rain becoming confined to northeast England and eastern Scotland later this afternoon. For Northern Ireland and western Britain the day will be largely dry and bright with some sunshine; the brighter weather spreading into central parts of England later this afternoon.

Outlook for Wednesday and Thursday:

Cloudy with outbreaks of rain for the northeast of Scotland this evening and also for Northern Ireland later in the night. Elsewhere it will be largely fine and dry this evening, with a fairly clear and chilly night to follow.
