

FPUK85 EGRR 040400  
Forecast for the UK.  
Issued by the Met Office  
at 0400 on Sunday 4 June 2006

\*\* Valid for Broadcasts Between 0600 and 1200 \*\*

Headline:

Chance of showers but many places dry. Mostly very warm.

Today:

Dry, bright conditions for most places with spells of warm sunshine. Some showers are likely, affecting parts of Scotland and northern England at first, but also a scattering of locally heavy, perhaps thundery showers developing over southern areas later.

Tonight:

Some showers over southern and eastern parts, gradually dying away overnight. Generally dry elsewhere.

Outlook for Monday:

Most places dry. Sunny spells developing. Warm.
