

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Saturday 09 May 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Outbreaks of rain across Wales and parts of northern England where it will stay cloudy throughout. Further south staying mostly dry and bright, while scattered showers develop across Northern Ireland and Scotland. Some of these showers could be heavy with hail and thunder possible.

Outlook for Monday and Tuesday:

Monday many places dry and fine with some sunny spells, although becoming windy across England. Tuesday will be wet and windy across the south of England, some of the rain could be heavy. Dry and bright for the rest of the UK. Wednesday dry for Scotland and Northern Ireland wet elsewhere.
