

FPUK85 EGRR 021000
Forecast for the UK.
Issued by the Met Office
at 1000 on Saturday 2 July 2005

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Most areas dry. Rain northwest today, north and west tonight.

Today:

Northwest areas cloudy with patchy rain or drizzle giving way to more general rain later. Becoming windy, risk gales far northwest later. Elsewhere mainly dry, some sunny spells developing in places.

Tonight:

Rain spreading across northwest into western areas. Clear spells following. Further southeast staying mainly dry. Gales far northwest.

Outlook for Sunday:

Sunny spells developing. A risk of showers, especially southeast and northwest.
