DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 13 July 2022 at 05:34 Local time

#### Air Quality Forecast for the UK

Issued by the Met Office

Today: Areas of Moderate air pollution forecast once again for parts of southern and eastern England given the warm conditions and generally light winds. Elsewhere across the UK air pollution is forecast to be Low.

Tomorrow: Air pollution is forecast to be predominantly Low on Thursday, although some isolated areas of Moderate pollution remain possible in the south.

Outlook: Air pollution is forecast to be predominantly Low across the UK to start. However, areas of Moderate pollution will continue across southern parts of England at times, becoming more widespread across the UK by Sunday.
