Here is the forecast for the United Kingdom for daytime tomorrow:
Saturday will be windy for most of us and it will be colder across the UK.
England and Wales will have rather cloudy skies with outbreaks of rain at times,
but elsewhere there will be sunny spells, with wintry showers for northeastern
coasts.

Outlook for Sunday and Monday:
Sunday is likely to be even colder, but it will be largely dry and bright, with
windy conditions in the south and a widespread frost overnight. By Monday, many
places will cloud over in the south, with brighter skies in the north, but most
places will stay dry.
