

FPUK86 EGRR 031745
Forecast for the UK.
Issued by the Met Office
at 1945 on Saturday 3 June 2006

** Valid for Broadcast at 2159 **

Here is the forecast for the United Kingdom for daytime tomorrow :
Scotland mostly cloudy, showery outbreaks at first. Eastern England rather cloudy, becoming brighter, some sunshine. Northern Ireland, southwest England mostly sunny. Wales, rest of England, early sunshine, cloud building, giving scattered locally heavy, perhaps thundery showers. Light winds, sea breezes. Becoming very warm, cooler in showers and near coasts.

Outlook for Monday and Tuesday:

Cloud over Scotland clearing slowly during Monday. Mostly sunny start elsewhere, but scattered showers developing over England. Continuing fine and sunny in most districts during Tuesday, but cloud increasing and winds freshening across northwest Scotland, with rain in the Outer Hebrides by evening. Warm or very warm inland, cooler near coasts.
