Here is the forecast for the United Kingdom for daytime tomorrow:
Tomorrow is set to be another rather cloudy day for the whole UK. It will
continue to feel cool for all thanks to a keen easterly breeze. There will be a
few light showers across England and Wales, meanwhile Scotland should remain dry
with some sunny spells.

Outlook for Saturday and Sunday:

Through this weekend, we hold on to that easterly breeze which continues to feed
in some cooler air across our shores. There'll be patchy amounts of cloud across
the country with a few showers too, these most frequent and heaviest in eastern
parts.
