

FPUK85 EGRR 041600
Forecast for the UK.
Issued by the Met Office
at 1600 on Wednesday 4 February 2004

** Valid for Broadcasts Between 1800 and 0600 **

Headline:

Rain becoming confined to the south with showers further north.

This Evening and Tonight:

In England and Wales, rain will become confined to southern areas, while in Scotland and Northern Ireland, rain reaching Shetland will be followed elsewhere by clearer, showery weather.

Thursday:

Southern areas will have rain at times, while further north, showers are likely, especially in western and northern Scotland.

Outlook for Friday:

All areas can expect showers with more prolonged rain in places.
