

FPUK85 EGRR 041600  
Forecast for the UK.  
Issued by the Met Office  
at 1600 on Monday 4 July 2005

\*\* Valid for Broadcasts Between 1800 and 0600 \*\*

Headline:

Many places becoming dry overnight. Rain spreading east on Tuesday.

This Evening and Tonight:

Heavy, thundery showers gradually dying away to give a dry night for most. However, persistent rain lingering near some eastern coasts with another area of rain reaching Northern Ireland later.

Tuesday:

Fine in many central and eastern parts initially but rain, preceded by scattered showers, moving east across many places during the day.

Outlook for Wednesday:

Early rain or showers but conditions improving later.
