

FPUK86 EGRR 030630
Forecast for the UK.
Issued by the Met Office
at 0700 on Thursday 3 November 2005

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Very windy across England and Wales today with gales, locally severe on the south coast. Lighter winds elsewhere. Generally cloudy with heavy, thundery showers and some longer spells of rain. Heavy, thundery rain continuing in the north tonight, but gradually clearing from Wales and N.Ireland. Drier with scattered showers in south. Rather windy. Gales across northern England and on Irish Sea coasts.

Outlook for Friday and Saturday:
Rain slowly clearing northeastwards from northern England and Scotland during Friday. Sunshine and scattered showers elsewhere. Mostly dry with sunny spells initially on Saturday, but rain will spread eastwards during the day. Breezy. Temperatures around normal.
