++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Rain, sometimes heavy, spreading across central and southern parts of the UK, with a few sharp showers ahead of it in eastern England. Much of Scotland and Northern Ireland staying dry but rather cloudy at times, with occasional showers in Scotland. Southern parts feeling warm again, but a bit fresher in the north.

Outlook for Wednesday and Thursday:  
Much of the UK staying mainly dry on both days with variable cloud amounts and some sunny intervals. Occasional rain across parts of Scotland on Wednesday but, otherwise, just a low chance of the odd shower. Temperatures around normal for July but feeling fresher than of late.
