

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Thursday 20 May 2010

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Apart from some coasts, most of England and Wales will have a dry, very warm and sunny day with light winds. After a promising start Scotland, Northern Ireland and parts of Northern England will see some heavy and perhaps thundery showers developing during the afternoon.

Outlook for Saturday and Sunday:
Apart from northwest Scotland which will stay cloudy with some light rain, most of the UK will have a dry and very warm day on Saturday with some sunshine. England and Wales stay sunny and warm on Sunday with cooler, showery weather for Scotland and Northern Ireland. The cooler weather spreads further south on Monday.
