

FPUK86 EGRR 031745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Thursday 3 February 2005

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Most parts cloudy with further spells of showery rain likely, especially where exposed to the southwest, but still some bright or sunny spells in the east. More general rain over western Scotland, spreading into Northern Ireland during the afternoon and northwestern parts of Wales and England during the evening. The rain heavy over western hills. Generally mild but windy in the west.

Outlook for Saturday and Sunday:  
Saturday becomes colder in the north, with sunny spells and wintry showers. Much of England and Wales stay cloudy with rain or sleet in places. Becoming drier Sunday and brighter but cold. Some showers, wintry in the northeast.
