

FPUK85 EGRR 281600  
Forecast for the UK.  
Issued by the Met Office  
at 1600 on Wednesday 28 January 2004

\*\* Valid for Broadcasts Between 1800 and 0600 \*\*

Headline:

Widespread frost tonight with snow showers clearing from most areas.

This Evening and Tonight:

Early snow showers will become mostly confined to some northern and eastern coastal areas with clearing skies and widespread frost elsewhere.

Thursday:

In Scotland and Northern Ireland, rain or sleet will arrive, while most other regions stay dry and bright after a very frosty start.

Outlook for Friday:

Most areas will turn milder with rain at times, although with parts of Scotland staying cold.
