DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 12 May 2021 at 05:19 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to be predominantly Low. However, pockets of Moderate pollution may develop in northern England and Scotland as winds become light.

Tomorrow: Some similar conditions on Thursday, with Low concentrations levels for most but perhaps a few pockets of Moderate pollution in northern England or Scotland.

Outlook: Air pollution levels will be Low across the UK during this period as the weather remains unsettled and occasionally breezy.
