

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Tuesday 08 May 2007

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:

A dry and bright start for many areas, but wet in the south with sunny spells and showers over much of Scotland. Cloud and rain, heavy at times in the west, will spread northeastwards during the day to reach all areas except the north of Scotland by evening. Winds freshening during the afternoon.

Outlook for Thursday and Friday:

Remaining unsettled across the United Kingdom on Thursday and Friday, with bright or sunny spells and showers for many. Occasional rain over Scotland and southern England will be heavy at times and strong winds are expected in the south on Friday. Temperatures will be around normal.
