

FPUK85 EGRR 211000
Forecast for the UK.
Issued by the Met Office
at 1000 on Wednesday 21 January 2004

** Valid for Broadcasts Between 1200 and 1800 **

Headline:
Mostly dry today before rain reaches most areas tonight.

Today:
In the extreme southeast and also westernmost and northernmost areas, patchy rain is likely. However other regions should remain mostly dry, although generally cloudy.

Tonight:
Outbreaks of rain will move from the northwest, although parts of Southeast England and East Anglia should stay dry, although misty.

Outlook for Thursday:
England and Wales can expect rain, while Northern Ireland and Scotland turn more showery.
