

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Sunday 11 Nov 2012

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
A bright, chilly start across the east of the UK with a patchy frost. Cloudier conditions with some rain across the west. Through the day, the cloud and rain and strengthening winds will spread east. The southeast of England staying largely dry however until the evening. Feeling mild with highs of thirteen Celsius.

Outlook for Tuesday and Wednesday:

Mild for all on Tuesday with some heavy rain in the northwest, in particular across southwest Scotland. The rain slowly easing through Wednesday. Southern and eastern parts mostly dry but often fairly cloudy on both days, but a higher chance of some sunny spells developing during Wednesday.
