

FPUK85 EGRR 221000
Forecast for the UK.
Issued by the Met Office
at 1000 on Sunday 22 August 2004

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Increasingly wet and windy in west. Mainly dry in east.

Today:

Rain will spread slowly from southwestern parts, some of it heavy and accompanied by strengthening winds. Much of Scotland and eastern England will stay dry and bright all day, although the odd shower is possible in eastern and northern parts.

Tonight:

Wet weather spreading east and north, scattered heavy showers following into the west.

Outlook for Monday:

Rain moving northeast, followed by heavy showers.
