Here is the forecast for the United Kingdom for daytime tomorrow :  
In Scotland, Northern Ireland, northwest England and northwest Wales,  
it will be mostly cloudy with outbreaks of rain, heaviest in the  
northwest. Elsewhere, mist or fog clearing, then dry and mostly  
sunny, especially in the southeast. Temperatures, very warm towards  
the southeast, but near normal in the northwest, where winds will  
increase.

Outlook for Saturday and Sunday:  
Southern and eastern areas will be mostly dry with variable cloud and  
some sunny periods. It will become generally warm, and very warm in  
the southeast. There will be some cloud and rain at times in  
northwestern areas, but still warm in any sunshine.
