

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 09 Feb 2007

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Snow over northern England moving north to Scotland, accompanied by strong easterly winds. Rain further south becoming very patchy, followed by showers in the southwest. Bright in northern Scotland, but any brighter intervals elsewhere will be very brief. Becoming milder from the south.

Outlook for Sunday and Monday:  
Snow and strong winds overnight, leading to local blizzard conditions, chiefly in the east. Snow turning to rain in southern Scotland. Area of heavy rain southwest England and Wales moving to northern England, followed by showers in the south. On Monday, rain, sleet or snow over northern Scotland, rain in south of England and Wales.
