

FPUK86 EGRR 021745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Sunday 2 April 2006

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Wintry showers will intensify across northern Scotland during tomorrow. Showers over southern Scotland and N.Ireland will gradually become wintry too. Some early rain over E.Anglia, otherwise sunny spells and just occasional showers. Breezy. Cold in far north, temperatures near normal in south.

Outlook for Tuesday and Wednesday:

Northern Scotland will be cold and mostly cloudy on Tuesday with wintry showers. Elsewhere will be rather cold with sunny spells, but some showers are likely, mainly over central and eastern England. Mostly dry and sunny on Wednesday with temperatures around normal. Rather cold and becoming windy across Scotland with cloud and rain, snow on hills, spreading southwards.
