

FPUK86 EGRR 040630  
Forecast for the UK.  
Issued by the Met Office  
at 0700 on Thursday 4 August 2005

\*\* Valid for Broadcast at 0858 \*\*

Here is the forecast for the United Kingdom until dawn tomorrow :  
For today showers in the northwest. Mainly dry with a bright start elsewhere, before rain extends across western then central parts later today, and over much of England and Wales tonight. Isolated showers over east England today. Blustery in the northwest and parts of southwest England tonight.

Outlook for Friday and Saturday:

On Friday showers over Scotland becoming less frequent. Elsewhere rain or drizzle clearing, with sunny spells later over England, Wales and Northern Ireland. Winds in the north and south easing.

For Saturday patchy rain or drizzle in the west. Drier with some sunny breaks in the east. Light winds. Humid in the south.
