

FPUK85 EGRR 011600
Forecast for the UK.
Issued by the Met Office
at 1600 on Tuesday 1 November 2005

** Valid for Broadcasts Between 1800 and 0600 **

Headline:

Wet, windy weather spreading from southwest overnight. Local gales.

This Evening and Tonight:

Rain, locally heavy, and strong winds spreading northeast across all but northern Scotland overnight. Gales in exposed parts. Drier conditions following across Wales and much of England later.

Wednesday:

Rain clearing the north and east. Otherwise blustery showers and occasional sunny spells.

Outlook for Thursday:

Very windy with gales in places, severe gales possible over southern England. Rather cloudy with blustery showers or rain.
