DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Thursday, 01 July 2021 at 05:02 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will be Low across the UK today, despite light winds and mainly dry conditions.

Tomorrow: Air pollution levels will be predominantly Low, although there is a chance of pockets of Moderate air pollution developing across parts of southern England.

Outlook: Isolated pockets of Moderate air pollution are possible, most likely across the Northern Isles late in the period, but generally air pollution levels will remain Low.
