Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

Pressure has increased considerably since Saturday. Temperature has increased in Scotland. The winds this morning are southwesterly in Ireland and Scotland, northwesterly in England, and incline to northeast on the west of France. On Saturday the wind was strong from northwest, and a thunderstorm occurred in London. This morning the sky is overcast in Ireland and Scotland, and the weather is fine in England.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

Pressure has decreased in the north, east, and south, but in the west it has not altered much, since yesterday morning. Temperature has increased considerably. The winds are westerly (WN to SW) light to fresh. Rain has fallen in the south of Ireland and a little elsewhere. Fog has prevailed in the southwest; and the sky this morning is hazy or overcast with rain in places.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

Barometrical pressure has increased since yesterday morning, especially in the North-east; but is decreasing again at Valentia, and on the west of France. Temperature has decreased slightly. The winds on our coast are still westerly, with a tendency northwards: force is light on the Northern and Eastern Coasts, and moderate in the West and South. The weather is generally fine but cloudy, and a little rain has fallen at a few stations.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

Barometrical pressure has decreased very considerably in the North of the British Isles since yesterday morning, but to a less extent in the South. Temperature has increased in a slight degree. The winds are more southerly in the North than they were yesterday; but in the South and West have returned towards the West, with an increase of force. Some rain has fallen in the North and West: fog and haze have prevailed in the South West; and Sea disturbance has increased generally.

Skudesnes...	29.17	37	N	5	2	W	b	-	1

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

Barometrical pressure has increased in the north and east, accompanied by a slight decrease in temperature; but in south of Ireland the ^{decrease of pressure} ~~fall in barometrical~~ has been considerable. The winds have backed towards south-west; and weather is fine on the East coast but overcast or cloudy elsewhere.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

Atmospherical pressure has decreased considerably on our southern and eastern coasts since yesterday, whilst in the west of Ireland it has increased. The winds on the northern coasts have veered northwards with slightly diminished temperature; and during the night it blew very strongly from south-west on our southern coasts.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

The increase of barometrical pressure has been general, and on the east coast very considerable, during the past 24 hours. The winds generally have backed towards the south-west, except on the south of England, where they have become northerly: they are generally light, with fine weather.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report.

REMARKS.

There has been a considerable decrease of barometrical pressure since Saturday morning: it is now least in the north-east, but is rising ^{in the night}. Temperature has not varied much; but the winds have become more northerly, with considerable increase of force. Rain has been very prevalent, with thunder and hail on the east coast: weather is generally cloudy.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Extreme Force and Direction since last Report. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—over-cast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report. Sea disturbance

REMARKS.

Barometrical pressure has decreased since Thursday, particularly in the North and East; but is now increasing at Valentia. The winds are principally south-westerly, and have increased in strength, but on the West of Ireland have veered to north-west. The weather has been rainy, but is now generally overcast.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Extreme Force and Direction since last Report. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report. Sea disturbance

REMARKS.

Barometrical pressure has decreased since yesterday, and continues to decrease except in north. Winds in the extreme north of Scotland and Ireland are northerly, but elsewhere are still from south-west. Rain has been general except on the east coast; and the weather is now, for the most part, cloudy.

Sea disturbance

REMARKS.

Since yesterday morning there has been an increase of atmospheric pressure, especially in the north, accompanied by a decrease of temperature over Scotland. Winds on the south coast are principally westerly, but on our other coasts are north-easterly. Rain has been general and sheet is reported from Nairn: sky generally overcast.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Extreme Force and Direction since last Report. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report. Sea disturbance

REMARKS.

Barometrical pressure is considerably less in the north-west than it was yesterday, and is still decreasing, but in the south the change is slight. Winds in the north have become southerly, whilst in the south they are more from the Eastward. The weather continues overcast, with rain in the west and south.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Extreme Force and Direction since last Report. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report. Sea disturbance

REMARKS.

There has been a considerable diminution in barometrical pressure since yesterday over the whole of the British Isles: the decrease is still continuing. The winds in the North have again become easterly, whilst those in the South have veered westward. Heavy rain has prevailed on the west coast of England: the weather is still overcast with rain in places.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Extreme Force and Direction since last Report. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report. Sea disturbance

REMARKS.

There has been a general increase of atmospheric pressure since Saturday, though it is now again decreasing at Valentia. The winds are principally from the north-eastward, but on the west coast of England they are south-westerly. Some rain has fallen in most places since Saturday: the weather is now fine except in south of Ireland.

Barometer corrected and reduced to 32° at sea level. Thermometer exposed in shade. Extreme Force and Direction since last Report. Weather: b.—blue sky; c.—clouds (detached); f.—fog; h.—hail; l.—lightning; m.—misty (hazy); o.—overcast (dull); r.—rain; s.—snow; t.—thunder. Rain-fall, snow or hail (melted), since last report. Sea disturbance

REMARKS.

The decrease of atmospheric pressure, noticed as having commenced yesterday at Valentia, has extended over the whole of the British Isles: this morning an increase has commenced in the southwest. The winds in the north and east are south-easterly, and are westerly on the South coast. Weather this morning overcast except in south-west. A good deal of rain has fallen since yesterday considerable.

W.S.
