A brighter day with sunny spells and showers, most of the showers in the north and northwest where they will be heavy at times with rain, hail and sleet, and falling as snow over hills. It'll be a windy day with gales in exposed hilly and coastal areas and this will make it feel cold even though temperatures will be close to normal.

Strong, cold winds on Sunday with wintry showers of rain, sleet and snow but sunny spells as well. Many areas dry on Monday with winds easing down. Temperatures near or a little below normal.
