Here is the forecast for the United Kingdom for daytime tomorrow :
England and Wales, dry at first with sunny spells but cloud and outbreaks of rain spreading from the west later. Scotland and N Ireland, bright spells with heavy showers in the north, but cloud and rain, perhaps heavy at times, spreading into N.Ireland and SW.Scotland. Temperatures, mostly near or a little below normal, but rather cool in showery rain in north.

Outlook for Friday and Saturday:
Scattered showers continuing across northern Scotland. Elsewhere, cloud, rain and drizzle clearing away southeastwards on Friday, but further cloud and rain will spread east across N Ireland, Wales and northern and central parts of England on Saturday.
