Air Quality Forecast for the UK

Issued by the Met Office

Today: With breezy and showery conditions across much of the UK today, levels of air pollution are expected to be Low.

Tomorrow: Air pollution levels are expected to remain Low on Wednesday.

Outlook: Isolated Moderate air pollution levels possible through to Saturday, especially in the vicinity of any bonfire or firework celebrations where levels may be significantly higher than indicated on forecast maps. There is currently a small risk of isolated High levels of pollution in the East Midlands on Saturday, but large uncertainty at this stage.
