

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Saturday 03 Feb 2018

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
It is set to be a brighter day across the UK tomorrow, with sunny spells, but it will be feel cold once again. However, some rain, sleet or snow showers are possible, mainly across the east, but becoming frequent across the far southeast later on into the evening.

Outlook for Monday and Tuesday:  
Staying cold next week, with frost and ice likely most nights. Snow showers will ease later on Monday, then after a bright start on Tuesday, a band of sleet and snow will slowly move southeastwards across the UK, though it will tend to ease as it does so.
