

Storm Angus

Storm Angus saw strong wind across the south of England and heavy rainfall causing flooding to parts of South West England.

Storm Angus impacts

Storm Angus brought strong gusts particularly to the south and south-west of England with observations of 69 - 81 mph in exposed coastal locations.

In the English Channel, a cargo ship collided with a barge and a passenger ferry was stranded for 26 hours. Stormy waves caused damage across the south coast with damaged reported to a sea wall at Swanage, Dorset and the main south-west railway line closed near Exeter due to flood damage.

Over 1,000 properties in the south-west of England were left without power.

Storm Angus - Maximum gust speeds (mph)

| Site Name | Area | Max Gust (mph) |
|-------------|-----------------|----------------|
| Guernsey | Channel Islands | 84 |
| Langdon Bay | Kent | 81 |
| Jersey | Channel Islands | 71 |
| Berry Head | Devon | 71 |
| Needles | Isle of Wight | 71 |
