

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Tuesday 08 Sep 2015

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
It will be dry and bright day for many today as any early mist or fog burns away. It will feel pleasantly warm in the sunshine as we head through the afternoon with just a little patchy cloud in places. Overnight it will stay dry with some clear spells and a few mist or fog patches will form once again.

Outlook for Thursday and Friday:
We will all see plenty of fine, dry and bright weather on Thursday and Friday. However on Friday we may also see a few showers developing. It will feel pleasantly warm with the light southeasterly breeze blowing on both days.
