

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Sunday 04 Jul 2010

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Very windy across Scotland today with heavy rain at times. Windy too in Northern Ireland, Wales and northern and western England, these places also seeing outbreaks of rain. Southeast England probably staying dry but becoming increasingly cloudy. Most places becoming dry overnight with winds easing but still remaining breezy in northern areas.

Outlook for Monday and Tuesday:  
Continuing windy with showers on both days in the northwestern half of the UK, the showers likely turning to more persistent rain and spreading into central areas on Tuesday afternoon. Elsewhere, mostly dry with sunny intervals and light or moderate winds.
