

FPUK85 EGRR 021000
Forecast for the UK.
Issued by the Met Office
at 1000 on Monday 2 August 2004

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Isolated thundery showers moving slowly east. Hot in most places.

Today:

Isolated thundery showers in the west will edge slowly eastwards, although most eastern areas will stay dry. With plenty of sunshine, most places will be hot and sultry away from eastern and southern coasts.

Tonight:

Some coastal fog in the southwest. Isolated thundery showers elsewhere; warm and muggy with fog patches forming in places.

Outlook for Tuesday:

Showers in most areas, thunder in places.
