Here is the forecast for the United Kingdom for daytime tomorrow:
An area of locally very heavy rain in northern England will transfer slowly southeastwards into the northern and eastern Midlands during the day. Most other areas will have a mixture of bright or sunny intervals and scattered showers, the showers locally heavy and thundery in the south.

Outlook for Saturday and Sunday:

On Saturday there will be a mixture of bright or sunny intervals and scattered showers, the showers most widespread in eastern areas. It will be a breezy day in the northeast. On Sunday, apart from the odd isolated shower, most places will be dry with some sunny intervals.
