

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Wednesday 03 Apr 2013

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
A widespread frost in most places at first. Further light snow showers across parts of south and east England, and a few light showers in northeast Scotland. Elsewhere, it will be generally dry with sunny spells. It will feel cold, and winds remaining brisk in the south.

Outlook for Friday and Saturday:

Another frosty start on Friday, winds still brisk in the south and the odd wintry shower still possible in the southeast. Elsewhere mainly cloudy but dry. Saturday winds lighter in the south, feeling less cold. Sunny spells elsewhere, particularly further east. The odd shower possible on eastern coasts of northern England and Scotland.
