

FPUK85 EGRR 031600
Forecast for the UK.
Issued by the Met Office
at 1600 on Friday 3 September 2004

** Valid for Broadcasts Between 1800 and 0600 **

Headline:

Rainy in the northwest. Very warm sunshine in the southeast.

This Evening and Tonight:

Some patchy rain in western and northern areas of Scotland and Northern Ireland, heavy in western Scotland at first. Elsewhere, clear spells will lead to mist and fog patches, away from the cloudier west.

Saturday:

Rain at times across Scotland, mainly west and northwest. Generally dry elsewhere, some very warm sunshine in southeast England.

Outlook for Sunday:

Some rain Northern Ireland/southern Scotland. Very warm/hot sunshine in the southeast.
