

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Friday 14 Sep 2007

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Cloud and a little rain across Wales and central England will edge southwards, with a few showers for Scotland, otherwise mostly dry with sunny spells. It will feel cooler and fresher than recently. Tonight, it will be dry, clear and cold with a touch of frost in the north, but rain will reach northwestern areas later.

Outlook for Saturday and Sunday:

Saturday will be mostly dry, warm and sunny for England and Wales, whilst Scotland and Northern Ireland will be wet and windy. Rain will spread southwards across all areas on Sunday followed by sunshine and showers. It will turn cooler from the north.
