DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 23 January 2021 at 05:34 local time

**Air Quality Forecast for the UK**

Issued by the Met Office

Today: A cold northwesterly airflow will cover the UK, bringing wintry showers to many northwestern areas, and maintaining Low levels of air pollution everywhere.

Tomorrow: The cold conditions will persist across the UK, along with wintry showers or spells of snow for some areas, and Low air pollution levels.

Outlook: Air pollution levels will remain Low across the UK, as the weather starts cold and fairly settled but then changes to become more unsettled and generally milder.
