

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Saturday 23 Jul 2011

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Most places dry and sunny but the extreme east of England will start rather cloudy with cloud increasing across the southwest. Northeast Scotland remaining cloudy for much of the day. Generally warm with light winds but strong northwest winds making it feel cool near North Sea coasts.

Outlook for Monday and Tuesday:

During Monday central and eastern areas will be dry and warm with sunny spells. The west and far northeast cloudy and misty with a little rain or drizzle. On Tuesday rain or drizzle affecting southern, southwestern and far northeastern areas dying out. Most places then dry and warm with bright spells developing.
