

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Monday 15 Sep 2008

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Today much of Scotland and Northern Ireland will have outbreaks of rain, locally heavy. Parts of Wales and northern and southwestern England will also have a little rain at times. Elsewhere though it will be dry and bright. Tonight southern and eastern England will be dry but further north and west there will be outbreaks of rain in places.

Outlook for Tuesday and Wednesday:

On Tuesday there will be further outbreaks of rain across much of Scotland, Northern Ireland, northern England and Wales. Elsewhere it will be dry and bright. On Wednesday, variable, often large, amounts of cloud, but also some showery rain in places.
