

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Sunday 06 Apr 2008

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
There will be widespread frosts and icy patches to start. Further snow and wintry showers will occur, particularly in the north and east to start, but more generally later in the morning and for a time during the afternoon. There will be some sunny breaks at times, but it will remain cold.

Outlook for Tuesday and Wednesday:

It will remain unsettled with sunshine and wintry showers. Some longer spells of rain or sleet are likely at times, with snow gradually becoming confined to the higher ground. It will be cold, and overnight frosts are likely in many places.
